TECHNOLOGY

**EMist**

Electrostatic Disinfecting Machine

# DISINFECTS 100% OF SURFACES FASTER AND MORE EFFICIENTLY

**EMist Electrostatic** Application Systems use patented technology to apply disinfecting solution to environmental surfaces with precision.

It is highly effective against **99.99%** of all viruses and bacteria, including **COVID-19**.

**The leader in commercial,  
industrial, institutional and  
residential disinfection.**

Whether it's a medical, commercial, or production facility, running a healthier operation begins with a healthier environment. EMist® was developed to help organizations reduce infections and improve patient, employee, and/or worker protection in a cost effective way.

## EMist

### Equipment Pricing

#### TECHNOLOGY MATTERS

EMist TruElectrostatics TruDisinfection™ Sprayers provide a positive charge to droplets. As droplets leave the electrostatic sprayer nozzle, they race to find their oppositely charged surfaces, this causes them to spread out and wrap around three-dimensional objects.

#### EM360™ Electrostatic Disinfectant Backpack Sprayer

- SKU# EM36-BPBD-2825
- Cordless Backpack
- 54,000 high-touch point sq ft per hour

## Thymox

Organic Disinfecting Chemical

We offer Thymox disinfectant for use with our EMist Electrostatic Machines. Together they provide a quick yet powerful disinfecting process which can be applied to a variety of environments for optimal safety.

Thymox disinfecting solution has demonstrated effectiveness against human coronavirus strain 229E and SARS-CoV-2 (the virus that causes COVID-19).

### Thymox is a Healthier Alternative

- ✓ Safer than bleach, ammonia, and other conventional disinfectants
- ✓ Less corrosive and less toxic
- ✓ Less of a respiratory irritant than other methods
- ✓ Organic and environmentally friendly

**Approved by Health Canada**
